

# Nexis® Data as a Service

Access a wealth of content from an ever-expanding universe of sources—all from a single data services provider.

Content	Benefit
<b>LexisNexis® Licensed News (Negative &amp; General News)</b>	Capture a more complete picture of current and historical licensed NEWS (40+ year archive!) from premium, global media sources; including local, regional, national, international, and industry news—real time or archives.
<b>Open Web Sources</b>	Expand your understanding of news/media with online/social/news and fair use data from the open web; including select social media.
<b>Company Reports</b>	Uncover critical financial information, corporate hierarchies, executive/ director relationships on public and private organisations around the globe.
<b>Agency Decisions</b>	Identify pertinent agency enforcement actions imposing sanctions on individuals or organisations.
<b>Federal &amp; State Dockets</b>	Understand an individual's or entity's litigation history to assess the likelihood of costly legal issues in the future.
<b>Legal Cases</b>	Assess legal risk by reviewing decided federal and state court cases—civil and criminal—as well as international courts from 14 jurisdictions and the UN International Court of Justice.
<b>Biographical Information</b>	Check the personal, educational and professional history of top corporate officers and other influential individuals to understand a person's qualifications and background.
<b>Global PEPs, Sanctions, Blacklists and Watchlists</b>	Identify potential compliance risk by running checks on individuals or entities across lists originating from more than 80 countries and translated from multiple languages
<b>Patents</b>	Take competitive intelligence research to the next level by understanding the technologies that are being developed/patented by your peers, competitors, industry.
<b>Broadcast Media</b>	Expand your understanding of news/media with two year archive of tv/radio transcripts + video.
